Education

University of Stuttgart <i>Doctor Degree of Philosophy in Computational Linguistics</i>	02.2023 – Present Stuttgart, Germany
Linköping University <i>Master of Science in Computational Social Science</i>	08.2020 – 06.2022 Linköping, Sweden
Jilin International Studies University <i>Bachelor of Arts in Business English</i>	08.2014 – 06.2018 Changchun, China

Working Experience

Research Associate <i>University of Stuttgart</i>	02.2023, - present Stuttgart, Germany
Research Assistant <i>Tsinghua University</i> assist in collecting and analyzing data on digital society & digital government	07.2022, - 03.2023 Beijing, China
Research Assistant (remotely) <i>Research Group on the Constitutional Movement in the Late Qing Dynasty in China</i> - assist in pre-sorting the digitalized historical newspapers - test different OCR solutions for recognizing vertical traditional Chinese characters in these newspapers	11.2021 – 01.2022 Wisconsin-Madison, U.S
Country Representative Assistant <i>Sinohydro Group Limited</i>	06.2018 – 06.2020 Dili, East Timor-Leste
Internship <i>San Antonio Zoo</i>	06.2016 – 09.2016 Texas, U.S

Teaching

NLP and Computational Social Science - Instructor <i>University of Stuttgart</i>	10.2025 – 02.2026 Stuttgart, Germany
Introduction to Programming - Teaching Assistant (remotely) <i>JNC Summer School (Jinan University)</i>	02.2022 – 06.2022 Guangzhou, China
Comprehensive Reading in Business English - Teaching Assistant <i>Jilin International Studies University</i>	09.2014 – 02.2015 Changchun, China

Publication

Contrast Comes at a Cost: Perception-centered Gendered Style with Large Language Models in Proceedings of the 2026 Conference on Empirical Methods in Natural Language Processing, Budapest, Hungary
- Hongyu Chen, Neele Falk, Michael Roth, Agnieszka Falenska

“Feels Feminine to Me”: Understanding Perceived Gendered Style through Human Annotations in Proceedings of the 2025 Conference on Empirical Methods in Natural Language Processing, Suzhou, China [2025]
Hongyu Chen, Neele Falk, Michael Roth, Agnieszka Falenska

What Can Go Wrong in Authorship Profiling: Cross-Domain Analysis of Gender and Age Prediction in 5th Workshop on Gender Bias in Natural Language Processing (GeBNLP), ACL, Bangkok, Thailand [2024]

- Hongyu Chen, Michael Roth, Agnieszka Falenska

Work in Progress

LLM Associations and Judgments by Perceived Gendered Style [2026]

- Hongyu Chen, Dong Nguyen, Valentin Hofmann, Agnieszka Falenska

Workshop Organization

The First Workshop on **Centering Social Perception in Natural Language Processing (NLPercep)** at ICWSM 2026 [Los Angeles, 26.05.2026]

- Hongyu Chen, Aswathy Velutharambath, Amelie Wühl, Sofie Labat, Lindsay Goolsby, Aidan Combs, Agnieszka Faleńska, Roman Klinger

Research Visit (incoming)

NLP and Society Lab

Utrecht University

09 – 10.2026

Utrecht, Netherlands

Invited Talk/Presentation (incoming)

Gendered Style in NLP: From Identity to Perception

Center for Information and Language Processing, Ludwig Maximilian University of Munich

30.06.2026

Munich, Germany

Perceived Gendered Style: Measurement, Transfer and Bias with LLMs

PhD session – Summer School informatica femminile BW 2026, University of Freiburg

30.07.2026

Freiburg, Germany

Awards & Honors

Excellent Graduation Thesis of JISU

Jilin International Studies University

2018 year(s)

National Scholarship

Jilin International Studies University

2017 year(s)

National Grant

Jilin International Studies University

2017 year(s)

Single Award scholarship of Jilin Provincial Discipline Competition

Jilin International Studies University

2016 year(s)

National Encouragement Scholarship

Jilin International Studies University

2015 year(s)

National Grant

Jilin International Studies University

2015 year(s)

Projects & Essays

06.2023 – Master Thesis Project: Nation and Language in Texts: The Cultural Consecration in the Committee's Historical Recommendation for Nobel Prize in Literature (1901-1969)

* Use Natural language Processing and Machine Learning methods to analyze a large corpus of digitalized records from the Nobel Prize Archive of the Swedish Academy

01.2022 – Algorithmic Bias in Facial Processing Technology

* A literature review of the ethical concerns around the application of Facial Processing Technologies

10.2021 – A Comparative Analysis using Structural Topic Modeling: The News Coverage on the 2019 Hong Kong Protests on Global News Media

* Compare how the global news outlets interpreted the 2019 Hong Kong protests by using a Structural Topic Modelling to analyze 515 news articles (scraped from the each of news website using R)

07.2019 – Discover the hottest topics in machine learning

* Use LDA topic modeling to analyze research papers appearing at the Neural Information Processing Systems over the past decade

05.2019 – Toronto Neighborhoods Exploring and Restaurant Clustering (Capstone Project in IBM's data science professional certificate program)

* Use Google map API and Foursquare API to obtain center addresses data and the corresponding information in Toronto, and to run K-means to cluster Toronto neighborhoods exploring the best location to open a restaurant

Other Skills

Human Languages: Chinese (Native Speaker), English (Full Professional Frequency)

Programming Languages: R; Python; Scala (limited with Netlogo)

Music Production & Djay: Garageband, LogicPro, DJUCED

Visual Design : TouchDesigner (basic)
